and Renewal Registration

PROFESSIONAL DEVELOPMENT WORKSHOP

Presented by
CLAIRE HOCKING
Dip. Teaching, Cert. A, AST 1, VIT, AKA
Educational Kinesiologist &
Brain Gym Consultant Australia

Claire Hocking is an Australian Educational Kinesiologist and Brain Gym Instructor and Director of the Whole Brain Learning Centre. Claire has extensively taught and used Educational Kinesiology and Brain Gym in preschools, primary and secondary schools, special developmental centers, health centers, and nursing homes. Claire has private consulting clinics in Geelong (Lara) and Macedon where she works with children and adults of all ages.

Claire specializes in using the Brain Gym movements in a fun and practical way using games and activities. Claire uses her extensive experience as a former primary music and secondary special needs teacher, and Brain Gym instructor to present the Brain Gym in enjoyable and positive games and activity sessions. Most students do not even realise they are 'rewiring' their brain more effectively and efficiently to improve their learning and behaviour, and mature their development; they just think they are having lots of fun and 'feel good' at the same time.

Claire has presented her work at many national and international conferences and workshops. Claire teaches the certified Educational Kinesiology courses and many introductory workshops that she has devised, based on her extensive Educational Kinesiology experience with her background in teaching and education

NOT APPLICABLE

A Workshop especially designed for Preschool and Kindergarten Teachers, Childcare Workers, Educators, Primary Teachers, Therapists, Consultants, Parents & Other Interested People.

Brain Gym forms and switches on connections in the brain for maximum learning, performance and functioning. This practical workshop demonstrates simple fun-to-do games & activities using the Brain Gym movements.

In this workshop you will learn:

- Simple fun-to-do games and activities using the Brain Gym movements that are easily incorporated into every day routines.
- Practical demonstration of the Brain Gym resources.
- Different ways you can easily implement Brain Gym to improve: learning, reading, writing, spelling, maths, coordination, concentration, language skills, vision, memory, fine & gross motor skills, self-esteem, behaviour, attitude, motivation, and reduce hyperactivity, anxiety and stress levels.

TESTIMONIALS

"A very informative and interesting presentation. Looking forward to putting the knowledge to good use! Thank you"

LW, TEACHER

"The most valuable part was learning the hands on activities and the varied approaches they can be adapted. Claire was very passionate and engaging."

DC, TEACHER

"Fun and engaging with great games and activities for all ages."

NL, TEACHER

"Thank you so much. I have learnt so much to help my children I teach."

RL, TEACHER

"The most valuable part was the practical aspect of why and what areas of development the Brain Gym helps."

RH, TEACHER

"Thanks you. I am excited to teach our children Brain Gym."

HB, TEACHER

"Fantastic introduction; very basic to do for many age groups."

SD, TEACHER
