

# BRAIN GYM™ for Learning Concentration & Memory

Learn Effective Educational Kinesiology  
Techniques and Strategies That Easily  
Switch-On the Brain For Improved Learning,  
Concentration and Memory

## PROFESSIONAL DEVELOPMENT WORKSHOP

Presented by  
**CLAIRE HOCKING**  
Dip. Teaching, Cert. A, AST 1, VIT, AKA  
Educational Kinesiologist &  
Brain Gym Consultant Australia

Claire Hocking is one of Australia's leading Educational Kinesiology Practitioners and the Director of the Whole Brain Kinesiology Centres, where she consults privately with all age groups. With over twenty years experience as a primary and secondary teacher, Claire has successfully used Brain Gym in schools both as a grade, music and integration teacher. Claire also regularly uses Educational Kinesiology in schools, aged care facilities and health centres.

Claire specialises in reducing all types of challenging behaviours both in her clinical sessions and in preschool and childcare centres, schools, workplaces, aged care facilities and in health centres for over 20 years. Professionals, clients and families have been consistently impressed with her positive approach and the results of her work.

Claire regularly works with clients in her clinics with mental health issues and challenges including depression, anxiety, phobias, eating disorders, addictions, bipolar disorders, with pleasing outcomes. Brain Gym can be especially useful for students experiencing any sort of learning or behavioural challenges or deemed to be 'at risk', or students with special needs and disabilities. Claire has also worked with a number of primary and secondary students who were about to be suspended or expelled from school due to their unacceptable behavior. All of these student's behavior and attitudes significantly improved once they commenced having consultations with Claire. All parents and teachers have been very pleased with the results achieved.

Claire regularly presents Brain Gym and Kinesiology programs and workshops both nationally and internationally.

NOT APPLICABLE

## Relevant for Preschool and Kindergarten, Primary, Secondary, Tertiary Levels and Adult Education.

Based on neuroplasticity, Brain Gym can bring about dramatic and lasting changes in brain integration. The Brain Gym movements are easy, quick and enjoyable as they “switch-on” areas in the brain that are needed for the day’s learning and functioning. They can bring about significant changes in concentration, memory, organization, reading, writing, spelling, maths, communication, speech, vision, hearing, vision, balance and coordination and overall well-being. Brain Gym will encourage all your students to work towards their full potential. Even though highly recommended for remedial and special needs students, everyone can benefit from doing Brain Gym.

## In this workshop you will learn:

- The 26 Brain Gym movement program
- How and why Brain Gym works and the latest brain research
- PACE -a specific sequence of Brain Gym movements that helps your students to settle down, relax, pay attention and effectively ‘switch on’ to learn and functioning more comfortably
- Different ways you can easily implement Brain Gym into daily routine, including the classroom and curriculum for effective learning and performance.
- Learn which Brain Gym are most useful for improving concentration, memory, thinking, reading, writing, comprehension spelling, speaking, listening, maths, sports, PE, music, drama, art, & IT.
